

DEPUTY HIGHWAY SUPERINTENDENT

DISTINGUISHING FEATURES OF THE CLASS: This position involves responsibility for administration and supervision of road and bridge construction and maintenance operations for a municipality, including extraordinary assignments relating to highway operations maintained by the municipality. Work is performed under general supervision of the Highway Superintendent with wide leeway for independently performing most duties of the position. Supervision is exercised over all staff assigned to highway operations.

TYPICAL WORK ACTIVITIES: *The typical work activities listed below, while providing representative examples of the variety of work assignments in the title, do not describe any individual position. Incumbents in this title may perform some or all of the following, as well as other related activities not described.*

Supervises the construction and maintenance of town roads, bridges, parks and other public works projects;

Works closely with engineering staff or consultants on various projects;

Directs and evaluates the functions and performance of employees assigned to highway department operations;

Prepares and submits reports summarizing the operation and expenditure of the highway operations;

Reviews and prepares employee work schedule and shift staffing;

Requisitions materials for construction and maintenance work;

Gathers data and makes recommendations with respect to the preparation and maintenance of the annual budget relating to highway operations;

Assures compliance with laws, rules, regulations, and code requirements relating to highway operations;

Meets with the governing board or other groups to make presentations relating to operation of
