

SOCIAL WORKER (ADULT CARE CENTER)

DISTINGUISHING FEATURES OF THE CLASS: This position involves responsibility for providing professional social work services to residents and their families in nursing homes and health related facilities to aid them in dealing with medically related social and emotional problems. An employee in this position serves as a member of an interdisciplinary health care team involving medicine, nursing, dietary, rehabilitation therapies and activities personnel in identifying needs and in formulating and implementing the restorative and discharge potential of residents. The work is performed within prescribed guidelines with leeway permitted in determining the scope of social work services to be provided in helping residents adjust to their medical condition and to the environment of the facility concerned. Employees in this position are expected to consult and cooperate with professionals in the other disciplines and agencies to aid them in recognizing the significant social components of health care and understanding their impact on residents and their families. The work may be performed either under the supervision of higher level social work personnel or under the general direction of the facility administrator depending upon organizational arrangements in accordance with facility policy. Supervision may be exercised over the work of Social Work Assistants and other subordinate employees assigned to the social services function in the facility. The incumbent does related work as required.

TYPICAL WORK ACTIVITIES: *The typical work activities listed below, while providing representative examples of the variety of work assignments in the title, do not describe any individual position. Incumbents in this title may perform some or all of the following, as well as other related activities not described.*
